

Travel Agent Management System API Test Results

=== Travel Agent Management System API Test Script ===

This script will test all endpoints of your microservices application

Sun Apr 20 01:20:21 PM IST 2025

=== Testing Agent Service ===

Testing: Create a new agent

URL: POST http://localhost:8000/agents

Payload: {

```
  "name": "John Smith",
  "email": "john@example.com",
  "phone": "123-456-7890",
  "availability": {
    "days": ["Monday", "Wednesday", "Friday"],
    "shift": "morning"
  }
}
```

}

Success! Response:

```
{
  "id": "65857bea-d6d9-4daf-9b76-19549975564a",
  "name": "John Smith",
  "email": "john@example.com",
  "phone": "123-456-7890",
  "rating": 0.0,
  "availability": {
    "days": [
      "Monday",
      "Wednesday",
      "Friday"
    ],
    "shift": "morning"
  }
}
```

Created agent with ID: 65857bea-d6d9-4daf-9b76-19549975564a

Testing: List all agents

URL: GET http://localhost:8000/agents

Success! Response:

```
[
  {
    "id": "fd70c492-8608-4bc9-a145-67160ed6908b",
    "name": "John Smith",
    "email": "john@example.com",
    "phone": "123-456-7890",
    "rating": 0.0,
    "availability": {
      "days": [
        "Tuesday",
        "Thursday"
      ],
      "shift": "evening"
    }
  },
  {
    "id": "65857bea-d6d9-4daf-9b76-19549975564a",
    "name": "John Smith",
    "email": "john@example.com",
    "phone": "123-456-7890",
    "rating": 0.0,
    "availability": {
      "days": [
        "Monday",
        "Wednesday",
        "Friday"
      ],
      "shift": "morning"
    }
  }
]
```

Testing: Get specific agent

URL: GET <http://localhost:8000/agents/65857bea-d6d9-4daf-9b76-19549975564a>

Success! Response:

```
{
  "id": "65857bea-d6d9-4daf-9b76-19549975564a",
  "name": "John Smith",
  "email": "john@example.com",
  "phone": "123-456-7890",
  "rating": 0.0,
  "availability": {
    "days": [
```

```
        "Monday",
        "Wednesday",
        "Friday"
    ],
    "shift": "morning"
}
```

Testing: Update agent availability

URL: PUT <http://localhost:8000/agents/65857bea-d6d9-4daf-9b76-19549975564a/availability>

```
Payload: {
    "days": ["Tuesday", "Thursday"],
    "shift": "evening"
}
```

Success! Response:

```
{
    "days": [
        "Tuesday",
        "Thursday"
    ],
    "shift": "evening"
}
```

Testing: Get agent availability

URL: GET <http://localhost:8000/agents/65857bea-d6d9-4daf-9b76-19549975564a/availability>

Success! Response:

```
{
    "days": [
        "Tuesday",
        "Thursday"
    ],
    "shift": "evening"
}
```

=== Testing Booking Service ===

Testing: Create a new booking

URL: POST <http://localhost:8001/bookings>

```
Payload: {
    "agent_id": "65857bea-d6d9-4daf-9b76-19549975564a",
    "customer_name": "Alice Johnson",
    "service_type": "Flight",
    "price": 350.00
}
```

```
}
Success! Response:
{
  "booking_id": "09768e7c-1c77-4fab-a66a-89799099a81e",
  "commission_amount": 35.0
}
Created booking with ID: 09768e7c-1c77-4fab-a66a-89799099a81e
```

```
Testing: Get agent bookings
URL: GET http://localhost:8001/agents/65857bea-
d6d9-4daf-9b76-19549975564a/bookings
Success! Response:
```

```
[
  {
    "agent_id": "65857bea-d6d9-4daf-9b76-19549975564a",
    "customer_name": "Alice Johnson",
    "service_type": "Flight",
    "price": 350.0
  }
]
```

```
Testing: Get agent commission
URL: GET http://localhost:8001/agents/65857bea-
d6d9-4daf-9b76-19549975564a/commission
Success! Response:
```

```
[
  {
    "agent_id": "65857bea-d6d9-4daf-9b76-19549975564a",
    "booking_id": "09768e7c-1c77-4fab-a66a-89799099a81e",
    "commission_percentage": 10.0,
    "commission_amount": 35.0
  }
]
```

=== Testing Sales Service ===

```
Testing: Record a sale
URL: POST http://localhost:8002/sales/record
Payload: {
```

```
  "agent_id": "65857bea-d6d9-4daf-9b76-19549975564a",
  "price": 450.00
}
```

```
Success! Response:
{
  "message": "Sale recorded"
```

```
}
```

Testing: Get sales by agent

URL: GET http://localhost:8002/sales/by-agent/65857bea-d6d9-4daf-9b76-19549975564a

Success! Response:

```
[
  {
    "agent_id": "65857bea-d6d9-4daf-9b76-19549975564a",
    "sales": 450.0
  }
]
```

Testing: Get sales trends

URL: GET http://localhost:8002/sales/trends

Success! Response:

```
{
  "trend": "positive",
  "growth_percentage": 10
}
```

=== Testing Invoicing Service ===

Testing: Generate an invoice

URL: POST http://localhost:8003/invoice

Payload: {

```
  "agent_id": "65857bea-d6d9-4daf-9b76-19549975564a",
  "customer_name": "Bob Wilson",
  "amount": 550.00
}
```

Success! Response:

```
{
  "invoice_id": "315bc0f2-8fdc-443f-ac00-09f999c2500d",
  "amount": 550.0
}
```

Testing: Process agent payout

URL: POST http://localhost:8003/payout

Payload: {

```
  "agent_id": "65857bea-d6d9-4daf-9b76-19549975564a",
  "payout_amount": 220.00
}
```

Success! Response:

```
{
  "payout_id": "5841bb2f-0ea8-44ad-8b0b-37dfa9b9a70e",
}
```

```
    "amount": 220.0
}
```

Testing: Get agent payouts

URL: GET http://localhost:8003/agents/65857bea-d6d9-4daf-9b76-19549975564a/payouts

Success! Response:

```
[
  {
    "agent_id": "65857bea-d6d9-4daf-9b76-19549975564a",
    "payout_amount": 220.0
  }
]
```

=== Testing Train Booking Service ===

Testing: List all trains

URL: GET http://localhost:8084/trains

Success! Response:

```
[
  {
    "train_number": "TRN001",
    "name": "Express 505",
    "source": "New York",
    "destination": "Washington DC",
    "departure_time": "08:30",
    "arrival_time": "12:00",
    "available_classes": [
      "First Class",
      "Business",
      "Economy"
    ],
    "base_price": {
      "First Class": 150.0,
      "Business": 100.0,
      "Economy": 50.0
    }
  },
  {
    "train_number": "TRN002",
    "name": "Coastal Link",
    "source": "Boston",
    "destination": "New York",
    "departure_time": "10:15",
    "arrival_time": "13:45",
  }
]
```

```

    "available_classes": [
      "First Class",
      "Economy"
    ],
    "base_price": {
      "First Class": 120.0,
      "Economy": 45.0
    }
  },
  {
    "train_number": "TRN003",
    "name": "Western Eagle",
    "source": "Chicago",
    "destination": "Denver",
    "departure_time": "14:20",
    "arrival_time": "22:35",
    "available_classes": [
      "First Class",
      "Business",
      "Economy"
    ],
    "base_price": {
      "First Class": 280.0,
      "Business": 180.0,
      "Economy": 120.0
    }
  }
]

```

Testing: Get specific train details

URL: GET <http://localhost:8084/trains/TRN001>

Success! Response:

```

{
  "train_number": "TRN001",
  "name": "Express 505",
  "source": "New York",
  "destination": "Washington DC",
  "departure_time": "08:30",
  "arrival_time": "12:00",
  "available_classes": [
    "First Class",
    "Business",
    "Economy"
  ],

```

```
"base_price": {
  "First Class": 150.0,
  "Business": 100.0,
  "Economy": 50.0
}
}
```

Testing: Create a new train booking

URL: POST <http://localhost:8084/train-bookings>

```
Payload: {
  "agent_id": "65857bea-d6d9-4daf-9b76-19549975564a",
  "train_number": "TRN001",
